About Us

Elite Innovation Contracting Est. (EIC) is a Saudi-based contracting and engineering services company providing **integrated MEP, Electrical, Fire Alarm & Fire Fighting, Civil, Security & surveillance, ELV & low current system,Portable Cabin, and Manpower Supply solutions** for industrial, commercial, and infrastructure projects.

EIC is committed to delivering projects with a strong focus on quality, safety, technical compliance, timely execution, and client satisfaction. Our team combines technical expertise with practical site experience to provide reliable and efficient solutions in accordance with project specifications, applicable standards, and client requirements.

Our core capabilities include MEP works, mechanical and electrical works, piping and pipe erection, low-voltage systems, fire alarm and fire fighting systems, portable cabin manufacturing, installation and shifting, testing & commissioning, and skilled manpower supply. We also undertake associated civil and finishing works, including concrete works, blockwork, flooring, painting, partitions, skirting, and general repair and modification works.

With a multidisciplinary team and project-oriented approach, EIC works closely with clients, consultants, and main contractors to deliver coordinated and cost-effective solutions from mobilization through completion and handover.

EIC aims to establish long-term business relationships by consistently delivering safe, reliable, quality-driven, and timely services, while maintaining high professional standards throughout every stage of project execution.

Our Values

Building Tomorrow, Today

1. ***Safety First***
   We prioritize safety in every project and every decision.

2. ***Quality Excellence***
   We deliver reliable workmanship that meets required standards and specifications.

3. ***Integrity***
   We operate with honesty, transparency, and accountability.

4. ***Innovation***
   We embrace practical and efficient solutions to improve project outcomes.

5. ***Timely Delivery***
   We are committed to efficient execution and meeting project timelines.

6. ***Client Partnership***
   We build lasting relationships through trust, communication, and consistent performance.

Our Services

Elite Innovation Contracting (EIC) delivers integrated contracting solutions for industrial, commercial and infrastructure projects, providing engineering, construction, installation, testing, commissioning and maintenance services in accordance with applicable project requirements, Saudi Aramco standards and recognized international codes.

ELECTRICAL SERVICES

Complete electrical installation and support services for LV systems and project facilities.

Key Capabilities:

- Power Distribution & Electrical Panels
- LV Cabling & Cable Containment
- Lighting & Small Power
- Earthing & Lightning Protection
- Equipment Connections
- Testing & Commissioning

MECHANICAL & HVAC SERVICES

Mechanical and HVAC solutions covering installation, modification, relocation and commissioning.

Key Capabilities:

- HVAC Systems & Ductwork
- AC Installation & Relocation
- Ventilation & Exhaust Systems
- Mechanical Equipment & Pumps
- HVAC Controls
- Testing & Commissioning

FIRE & LIFE SAFETY

Integrated fire protection solutions designed, installed and commissioned to applicable project requirements.

Key Capabilities:

- Fire Alarm Systems
- Fire Fighting & Sprinkler Systems
- Fire Hydrant & Hose Reel Systems
- Fire Pump Systems
- Kitchen Hood Suppression
- Testing & Commissioning

Our Services

ELV & LOW CURRENT

Technology and low-current systems for secure, connected and efficiently managed facilities.

Key Capabilities:

- CCTV & Access Control
- Structured & Fiber Optic Cabling
- Data & Communication Systems
- Public Address Systems
- BMS & Control Systems

PORTACABIN & MODULAR SOLUTIONS

Complete modular building services from fabrication and preparation to relocation, installation and refurbishment.

Key Capabilities:

- Portacabin Manufacturing & Fabrication
- Dismantling & Relocation
- Transportation & Reinstallation
- Internal & External Modification
- HVAC, Electrical & Fire Protection Integration
- Flooring, Ceiling & Partition Works
- Refurbishment & Renovation
- Site Installation & Handover

ENGINEERING & PROJECT SUPPORT

Technical and project support services delivered throughout the project lifecycle.

Key Capabilities:

- Engineering & Shop Drawings
- Material Submittals
- Method Statements & ITPs
- Project Coordination
- Testing & Commissioning
- As-Built Documentation
- Operation & Maintenance Documentation

MAINTENANCE & AFTER-SALES SUPPORT

Reliable technical support to maintain system performance, safety and operational continuity.

Key Capabilities:

- Preventive Maintenance
- Corrective Maintenance
- Troubleshooting & Repairs
- System Upgrades & Modifications
- Emergency Technical Support

Our Services

HEAVY EQUIPMENT RENTAL

Reliable equipment rental solutions supporting construction, industrial, infrastructure and project requirements.

Key Capabilities:

- Mobile & Crawler Cranes
- Excavators & Backhoe Loaders
- Forklifts & Telehandlers
- Boom Lifts & Man Lifts
- Wheel Loaders & Compaction Equipment
- Generators & Compressors
- Equipment Rental with Qualified Operators

VEHICLE MAINTENANCE

Comprehensive vehicle maintenance and repair solutions focused on fleet reliability, safety and operational readiness.

- Preventive & Periodic Maintenance
- Mechanical Repairs & Troubleshooting
- Electrical & AC Repairs
- Engine & Transmission Services
- Brake, Suspension & Steering Services
- Battery, Tyre & Oil Services
- Vehicle Diagnostics & Inspection
- Fleet Maintenance Support

MANPOWER RENTAL

Skilled and qualified manpower solutions supporting construction, MEP, industrial, maintenance and project requirements, including Aramco-approved manpower for applicable project requirements.

Key Capabilities:

- Aramco-Approved Skilled & Semi-Skilled Manpower
- MEP Technicians & Electricians
- Fire & Safety Technicians
- Welders & Fabricators
- Civil Workers & Helpers
- Equipment Operators & Drivers
- Project-Based & Long-Term Manpower Supply

VISION 2030

Company Policy

It is the policy of EIC Elite Innovation Contracting to ensure and adhere to strict operational procedures identified to avoid risk to employees and others who may be affected, with proper regard for environmental conservation.

The company continually endeavors to provide safe workplaces, safe operating systems, and thorough maintenance, care, and attention across all processes, plants, and equipment to prevent personal injuries or health risks.

In implementing this policy, EIC Elite Innovation Contracting fully recognizes the importance of complying with relevant local legislation and promoting appropriate measures to safeguard the environment for anyone directly or indirectly affected by operational activities.

Management and supervisory staff are responsible for implementing this policy throughout the organization, ensuring that Health, Environment, and Safety considerations receive top priority in planning and daily supervisory work. Appropriate measures cover operational safety, prevention of air, water, and soil pollution, and precautions to minimize damage in the event of an accident.

The company undertakes to continually review and improve its operating procedures, equipment, and resources to comply with the following principles:

- All employees will observe applicable environmental, health, hazardous material transportation, safety, and product safety laws and regulations.
- Priority is given to the protection of employees, the public, clients, and the environment.
- Prior to implementing changes to existing operations, line management will evaluate and address potential adverse environmental impacts.
- Hazardous materials will be avoided whenever possible. When necessary, their use will be minimized, and appropriate personal protective equipment will be provided.
- Hazardous materials will be replaced with environmentally friendly alternatives where possible. Work activities must be carefully planned to prevent spills and accidental environmental releases.
- Line management will promote environmental awareness among all employees, fostering an understanding of how operational activities impact the environment.
- Employees are encouraged to identify and promptly report potential environmental concerns to senior management or the HSE section.
- Recognizing the importance of environmental protection, the company strives to promote efficient energy use and conservation at all practicable times. All employees are expected to cooperate with the company to ensure their work is carried out without risk to themselves or others.
- The General Manager holds overall responsibility for Health, Environment, Safety, and Welfare, and should be consulted regarding any implementation challenges.

Safety Policy

It is the policy of EIC Elite Innovation Contracting (EIC) to ensure and adhere to strict operational procedures identified to avoid risk to its employees and others who may be affected, with proper regard for the conservation of the environment. The company will continually endeavor to provide safe workplaces, a safe system of work, and thorough, orderly, good maintenance, care, and attention to all processes, plant, and equipment to avoid personal injuries or risks to the health of its employees. In implementing this policy, EIC fully recognizes the importance of not only complying with relevant local legislation, but also promoting appropriate measures to safeguard the environment for all who may be affected directly or indirectly by the company's operational activities.

Management and Supervisory Staff have the responsibility for implementing this policy throughout the company and must ensure that Health, Environment, and Safety considerations are always given priority in planning and day-to-day supervisory work. Appropriate measures relate to the safety of our operations undertaken by company employees, prevention of air, water, and soil pollution, and precautions to minimize damage from such accidents as may occur in the circumstances.

- All employees in the company will observe applicable environmental, health, hazardous material transportation, safety, and product safety laws and regulations.
- Priority is given to the protection of employees, the public, clients, and the environment.
- Prior to any new changes to existing operations, company line management will address any possible adverse environmental impact before implementation.
- Strict control by line management responsible for operations shall be exercised over waste generation and on-site disposal, together with toxic and critical pollutant emissions.
- Materials considered to be of a hazardous nature to employees, the public, or the environment shall be avoided; where their use is deemed necessary, risks shall be minimized with appropriate PPE.
- Wherever possible, such materials shall be replaced with alternative materials of an environmentally friendly nature. Careful planning of work activities will ensure spills and unintended releases to the environment are avoided.
- Prior to any new changes to existing operations, company line management will address any possible adverse environmental impact before implementation.
- The company, through its line management, will promote environmental concern among all employees and seek to generate overall awareness of the impact of their operational activities on the environment.
- All employees will be further encouraged to identify and promptly report potential environmental matters of concern to their senior management and/or the Health, Safety, and Environmental section.
- The company, having acknowledged the importance of protecting the environment, will at all practicable times seek to promote the efficient use of energy sources and maximize conservation aspects.
- All employees are expected to cooperate with the company in carrying out this policy and must ensure that their own work, so far as is reasonably practicable, is carried out without risk to themselves or others.
- The General Manager has primary responsibility for Health, Environment, Safety, and Welfare, and is the key point of reference should any difficulties arise in the implementation of this policy.
- The operation of this policy will be monitored by the management and staff of the company.
- This statement of Company Safety Policy will be displayed prominently at all sites and workplaces.
